

## Geda 300z Electric Goods Only Hoist

The Rack and Pinion type design is the new generation of Vertical Platform Hoists, marking a significant advancement in the area of safety and efficiency. The 300Z model is an excellent piece of equipment providing a rapid lifting speed of 20m/min and a load capacity of 300kg. An added feature of the 300Z is the provision for carrying scaffold tubes and other larger items by utilising a purpose designed scaffold rack.

### On Operation

The 300Z has a single touch control enabling the operator to continue working while the hoist is in operation. A built in limit switch stops the hoist at loading level and 2m above ground.

### Key Benefits:

- Up to 50m in height
- Safe working load (SWL) 300kg
- Hoisting speed 20m/min
- Electric/mechanical interlocking gates
- 240v Electric
- Scaffold rack
- Transported by trailer.

In compliance with EC guidelines - 240v power supply is required.

## Technical data Geda 300Z

### TECHNICAL DATA

#### CAPACITY

Payload capacity	300 kg
Speed	20 m/min
Maximum lifting height	50 m
First tie space	2 to 3 m
Next tie space	4 m
Last tie space	3 m

#### PLATFORM DIMENSIONS

Width	0.75 m
Length	1.4 m
Mast section length	2.0/1.0/0.66 m

#### ELECTRICAL DATA

Power supply	230V 3Ph 50 Hz
Power supply fuses	16 A
Rated power cont.duty	1.5 kW

#### WEIGHTS

Base unit and enclosure	393 kg
Mast section	25/14/10 kg
